Mission Statement:

"Intelligence plus character – that is the goal of true education."
-Dr. Martin Luther King, Jr.

Through high expectations, a structured academic environment, and positive character development, Martin Luther King, Jr. Charter School of Excellence ensures that every student in kindergarten through grade 5 is equipped to think critically, communicate clearly, and are empowered with a strong ethical foundation to be set on the path for success in college, career, and life. The school incorporates Dr. King's commitment to the highest standards in scholarship, civic participation, and the ideal of the beloved community

_

¹ In June 2020, the Board of Elementary and Secondary Education (Board) adopted initial amendments to the student learning time regulations on an emergency basis, and in September 2020, the Board voted on final adoption of the amendments. Among other provisions, the revised regulations altered the student learning time requirements for the 2020-2021 school year to be 170 days and 850 hours (for elementary schools) and 935 hours (for secondary schools).

FAITHFULNESS TO CHARTER

MISSION AND KEY DESIGN ELEMENTS

In the 2021-2022 school year, Martin Luther King, Jr. Charter School of Excellence (MLKCSE) continued to implement our school model as outlined in our charter application. This was the first academic year implementing our most current Accountability Plan (2021-2026) which reflects minor revision from our original Mission Statement and renewed Key Design Elements. This academic year, we remained committed to our mission and were focused on delivering high quality teaching, learning, and interventions to our students, as we re-acclimate to our first school year fully in-person since the start of the COVID-19 pandemic.

As outlined below, our school's key design elements reflect our mission which is rooted in academic excellence, character development, and aspiring to Dr. King's ideal of beloved community and reflect our school's programmatic priorities. The Key Design Elements refined in our 2021-2026 Accountability Plan are:

CIVIC PARTICIPATION AND ENGAGED CITIZENSHIP FOR SOCIAL JUSTICE

In line with the ideals of Dr. Martin Luther King, Jr., we highly value and prioritize civic participation and social justice in addition to high expectations for academic excellence. Historically, students have participated in the annual community service project and then completed a reflection about their experience. In our renewed iteration, our students will be able to engage in civic participation and social justice annually not only through participation and reflection, but more meaningfully by also identifying a need in our community and collaborating with staff on the preparation.

This year, our students engaged in two community service projects. In November, our Young Scholars cohort helped organize our Annual Community Food Drive. All students participated and donations were delivered to our local Loaves and Fishes Kitchen and Open Pantry. In late March, we held another community service project to raise funds to aid with the destruction caused by the invasion of Ukraine. The students helped organize a penny drive and all proceeds were donated to Americares.

Looking ahead, our goal is to be comprehensive in our reflection element and ensure that students understand the importance of civic participation and engaged citizenship for social justice. We want our students to understand that they can make positive contributions to their community by addressing genuine community needs.

POSITIVE CHARACTER DEVELOPMENT

As Dr. King stated, "Intelligence plus character – that is the goal of true education." Our goal is to ensure that not only will our students leave us with a strong academic foundation, but that they are also equipped and empowered with a sound ethical foundation. We work to create and maintain an academic environment where all students feel safe – physically, emotionally, socially, and intellectually. Within the broad umbrella of positive character development, we are

focused on developing our students' growth in their emotional recognition, perspective-taking, problem-solving, and self-control. We believe these areas will be pillars in their academic growth.

To drive this work forward, we have built explicit components into our academic program. We highly value Community Meeting time which happens every morning in advisories to open the day. During Community Meeting, teachers are able to establish and promote a classroom community of belonging and relationships through activities that support positive social interactions between peers, as well as teach social emotional skills that students can utilize throughout their day of learning. Social emotional learning has been crucial for students. In our experience, the adverse impacts from the COVID-19 pandemic have amplified the need and elevated the importance. We believe all students can learn and achieve at high levels. We see our SEL work as a means to maximize students' academic growth by helping them to be fully available to learn.

In addition, we infuse our Core Values both explicitly and implicitly throughout our academic program. Our MLKCSE "PRIDE" core values encourage our students and staff to: **P**romote Social Justice, have and show **R**espect for your, others, and belongings, operate with Integrity, be **D**etermined, and always strive for **E**xcellence. Each month of our Annual Calendar aligns to a Core Value and we focus on defining, developing, and celebrating our progress during Assembly at the end of each month.

EXPERIENTIAL LEARNING

Our students engage in experiential learning opportunities to deepen their understanding of the knowledge and skills demanded by the content standards. Our focus on experiential learning is an area more recently targeted by our academic program and Key Design Elements. Research shows that by engaging students in hands-on experiences and reflection, they are better able to connect knowledge learned in the classroom to real-world situations. Though this concept is not new to us, the need has been heightened by the pandemic. Student learning was impacted by remote learning and students returned to in-person learning with significant learning gaps. While our remote instruction was comprehensive and consistent, we believe that teaching and learning and the interactions and collaboration possible in-person were unmatched in the remote setting. Additionally, some students' social, executive functioning, and fine motor skills are lagging.

We believe that all students deserve a high quality educational experience and we are committed to closing the opportunity gap and ensuring that our students have access. Experiential learning makes learning for all more accessible. The hands-on nature supports our diverse learners. It provides all students with a common experience from which to build. Our goal in the upcoming school year is to build in more opportunities for thoughtful, sequential, and high-impact experiential learning aligned to our content units.

INDIVIDUALIZED STUDENT SUPPORT

We believe that great teachers are the most important levers for our academic success as a school. As such, we allocate a significant amount of time and resources to our hiring process and our program for teacher development and retention. This year was an atypical challenge with many educators leaving the field during the pandemic. We had many newer educators this academic year. We also codified our commitment to diversity, equity, inclusion, and belonging as

it relates to building and retaining talent on our team.

Our school has a wide range of diverse learners. High quality teaching and learning begins with a strong "first teach" in Tier 1 instruction. This is still an area we are strengthening and refining. In addition to providing all students with access to grade level content, we simultaneously need to meet our students where they are. We implement a responsive academic program and use data to drive our instruction. Our students benefit from small group academic support based on student needs in ELA and Math. In the upcoming school year, we are committed to increasing the frequency of data-driven cycles within our instructional model.

We provide intensive, targeted reading and math instruction in small groups during our "WIN" (What I Need) block daily. These small, flexible ability groups allow us to accommodate the diverse needs of students; expectations for each group are consistent, but teachers can better target skill development. We maintain an inclusion model which also provides high quality special education and language acquisition and development services to our diverse learners.

DISSEMINATION

We are committed to being a learning organization that is open to sharing impactful practices. We also remain committed to learning from others. We focus on identifying impactful practices annually that we can share with other schools and educational communities. This year, we did not do as much dissemination as we prioritized our students' academic growth and developing our teachers. This year we did share impactful practices in the Department's IEP Improvement Focus Group and we presented at the Annual MATSOL Conference.

AMENDMENTS TO THE CHARTER 2021-2022

Date Submitted	Amendment Requested	Pending or Approved?
05/18/2022	Shortened school year (due to COVID)	Approved

At Martin Luther King, Jr. Charter School of Excellence (MLKCSE), we remain committed to utilizing suspensions only as a last resort. We continue to operate from a mindset that our responsibility is to protect our students and support their social and emotional health. We see suspension as punitive disciplinary action that most often does not modify unwanted behaviors. At the same time, there are instances where suspension is warranted. In those instances, our school also does reflective and restorative work in addition to the discipline piece. This additional work is a key factor in ensuring that the incidents do not repeat, and that students are taught social emotional regulation and self-management skills as a replacement for unwanted behaviors.

School year 2020-2021 was an atypical academic year with the COVID pandemic heightened. Much of the school year was spent with the majority of our staff and students teaching and learning remotely. As such, discipline overall was required much less than in-person. Being at home rather than in classrooms full of peers, the elimination of transitions, and not having in-person lunch or recess were significant factors that mitigated many of the incidents that we see arise when we are all off campus.

That being said, the transition back to in-person full-time learning brought an acclimation period that was not without challenges. There were many students that were able to adjust quickly. There were a number of students who really struggled to reacclimate to the highly structured school environment. We also had students who had never set foot inside a school building before due to COVID, so we did experience an increase in instances in the 2021 - 2022 school year. We feel confident that this increase was temporary and we have plans to continue to support students to be successful now that we have settled back into the rhythm of in-person

learning. Our plans for this upcoming school year include restructuring both the in classroom and out of classroom accountability procedures within our school culture, in order to support students in developing skills to self manage and regulate their emotions. We have also committed to increasing our trauma-informed practices and continuing to develop our social emotional learning program to support the emotional well being of our students.

Our school monitors and analyzes discipline regularly. We work to promote a positive school climate and equitable discipline practices. We utilize an online platform that allows us to track all student behavior - positive, corrective, referrals, and consequences. Our culture team, led by our Dean of Students monitors the inputs daily. Additionally, our culture team reviews this data at the end of each week. They analyze patterns - repeat students, repeat teachers, days of the week, times of the day, etc. They use this data to plan action steps for improvement. We work to keep our students in school and available for learning to the maximum extent safely possible. We work to process, teach replacement behaviors, and utilize restorative practices whenever possible with all involved parties including between the classroom teacher and student after returning to the learning environment.

Additionally, when a more extreme incident may occur, our Dean of Students works in collaboration with our Executive Director before determining the consequence. As we review each incident and the specific context, we also consider recommendations to decrease racial discrimination in discipline policies. We know some learning environments have cultural practices that primarily use negative consequences to influence student behavior and also disproportionately discipline male students of color. We remain hyperaware and do our best to avoid perpetuating this while simultaneously upholding the safety of all students and staff.

DISSEMINATION EFFORTS

Best Practice Shared	Vehicle for Dissemination (describe the method, format, or venue used to share best practices)	Who at the school was involved with the dissemination efforts? (Title)	With whom did the school disseminate its best practices? (Highlight partners and locations, including school districts)	Result of dissemination (Share any changes in practice or new opportunities for students that occurred as a result of your work at other schools/districts. List any resulting artifacts, materials, or results from partners and indicate if the school received grant funding to disseminate and if a grant report was written.)

Oral language and discourse protocols	Virtual Conference	Diana Yousfi, English Learner Program Director	MATSOL Annual Conference	Shared best practices of ESL instruction at MLKCSE, resources around developing oral language through discourse protocols, connected with 92 participants from districts across the Commonwealth of Massachusetts.

ACADEMIC PROGRAM SUCCESS

STUDENT PERFORMANCE

Martin Luther King, Jr. Charter School of Excellence's school report card (overview) linked here.

Just as the COVID-19 pandemic had a profound impact on the 2020-21 school year, the adverse impacts continued into the 2021-2022 school year. The pandemic exacerbated many existing inequities and opportunity gaps. Our students experienced lower rates of growth than pre-pandemic academic years. 55% of our students met or exceeded their growth targets in reading. 55% also met or exceeded growth targets in math. We worked hard this academic year and our students made growth, however, we know there is still significant room for improvement. Looking ahead to the 2022-2023, we are even more deeply committed to better accelerating student growth and student achievement.

ACADEMIC PROGRAM

We have high quality curriculum and assessments in place and did not have any significant modifications this academic year. For ELA, we implemented the Wit and Wisdom curriculum for the second school year in a row. We worked to add scaffolds and differentiation into the curriculum to meet the needs of all learners. Significant amounts of professional development were provided to teachers to improve the writing components and instruction associated with this curriculum. We utilized Wilson's Fundations curriculum in grades K-2 to teach foundational reading skills and phonics. For Math, we implemented the i-Ready Math curriculum for the second year. We utilized the i-Ready MyPath feature to provide additional individualized and adaptive supports for students. In science, we implemented the Amplify Science curriculum in grades K-5 for the first time. It is a hands-on, research-based curriculum. In addition to high quality Tier I programs, a large percentage of our students received small group or individualized intervention in reading or math on a daily basis. Relative to prior academic years, we did have many more students receiving daily Tier II academic interventions. This was a greater number of students with a greater dosage, focus and frequency than prior school years.

For assessments, we primarily focused on progress monitoring throughout the academic school year. To monitor literacy progress, we used the STEP assessment from the University of Chicago. To progress monitor and math, we used iReady which compliments the iReady Math curriculum. We used internal interim benchmarks assessments for Science. Our teachers continued to progress monitor students with special needs against their IEP goals. Finally, we used the WIDA rubric to monitor the progress of our English learners. We focused most specifically on speaking and writing.

We implemented a co-teaching model in Grades K-3. Our academic coaches worked extensively with teachers to co-plan lessons that met the needs of diverse learners. These coaching sessions were coupled with modeling and follow up observations to increase fidelity and effectiveness. Additionally, we collected baseline data early in the school year to analyze exactly where every single one of our students was academically. We adjusted our Master Schedule prior to the start of the school year to ensure that our core content areas had adequate time for thoughtful work. In addition to high quality Tier I programs, a large percentage of our students

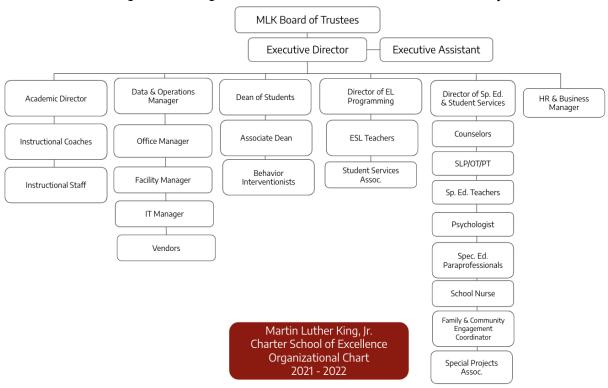

received small group or individualized intervention in reading or math on a daily basis. Teachers and staff worked incredibly hard this year to address gaps in student learning.

We focused on building community and supporting students and families socially and emotionally. We also focused on our progress monitoring assessments for literacy and math. For literacy, we utilized the STEP assessment and for math we utilized iReady Math. We administered these assessments at the beginning, middle, and end of year. In addition, we assessed student progress using exit tickets, real time anecdotal data, middle and end of unit/module assessments and writing samples. Our academic leadership team heavily supported teachers through lesson plan review and feedback, content development, observation and feedback, and coaching cycles. We worked to support teachers in delivering strong grade-appropriate instruction with scaffolds and interventions when they are needed. We allocated time, staff, and resources to small group interventions. These groupings were flexible over the course of the year and small group instructors had a clear sequence of learning targets based on the students in their groups. We monitored frequently using pre- and postassessments. Students flexed groups as needed cyclically and based on their performance data and progress. 55% of our students met or exceeded their growth targets in reading. 55% also met or exceeded growth targets in math. While progress was achieved, we have much more work to do in the upcoming academic year.

ORGANIZATIONAL VIABILITY

ORGANIZATIONAL STRUCTURE OF THE SCHOOL

There were no changes to the organizational structure in the 2021-22 school year.

SY22-23 projected organizational chart

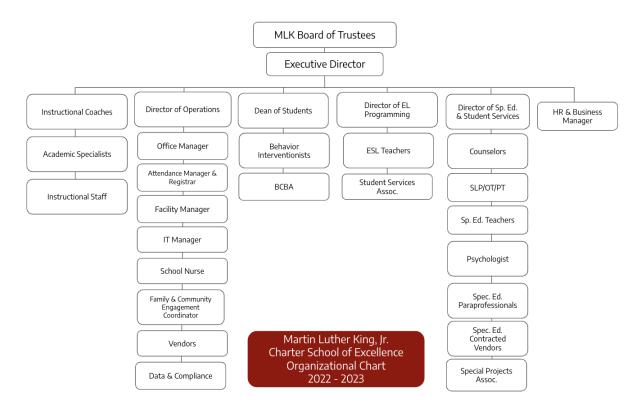

Based on the needs of the school, we will be making adjustments to the organizational structure for the upcoming year.

For our academic team, we will continue with our instructional coaches, but they will report to the Principal/Executive Director. We are working to hire a principal when we find a strong fit. Until then, the leadership structure will remain as is. We plan to add academic specialists for math and literacy. Their primary responsibilities will be to work with students at the Tier II and III intervention level.

We are looking forward to our Academic Director shifting into our Director of Operations role to support key systems of the school and continue to strengthen our operations. Also on the operations team, we are adding an Attendance Manager and Registrar. Attendance management and responsibilities of the Registrar were previously handled by Operations Associates. We are prioritizing this area and will have someone dedicated solely to attendance and enrollment. We will be shifting the operational responsibilities of the Data and Operations Manager to the Office Manager and Director of Operations. The data management and compliance responsibilities will remain with the Data Manager.

Finally, for our culture team, we are shifting the structure to a Dean of Students, a full-time Board Certified Behavior Analyst (BCBA), and three behavior interventionists. We are continuing to push forward our focus on developing staff's emotional intelligence, students' and staff' social emotional learning, and behavior interventions that are proactive and support students' academic growth and development.

The projected organizational chart can be found below:

Please explain any variances: N/A		

The school does not have a Capital Plan for FY23 but is in the planning stages of a capital project and will develop a Capital Plan during the course of the upcoming 2022-2023 school year.

APPENDIX A: ACCOUNTABILITY PLAN EVIDENCE 2021-22

Faithfulness to Charter

-aithfulness to Charter	0001.50			
	2021-22 Performance (Met/Not Met)	Evidence (include detailed evidence with supporting data or examples)		
Key Design Element Connection: Civic participation and engaged citizenship for social justice				
Objective: MLKCSE students will be able to engage in civic participation and social justice annually through preparation, action, and reflection, as measured by Community Service Learning Rubric and culminating in a project based on a genuine identified need in the community.				
		Dates of EI, SEL and Anti-Racist Professional Development:		
		August 20th, 2021 8:30-11:30 August 26th, 2021 8:30-11:30 September 17th, 2021 2:15-3:55 October 8th, 2021 2:30-3:55 October 29th, 2021 2:30-3:55 December 10th, 2021 2:25-3:55		
		90%+ attendance at each session.		
Measure: In order to become an actively anti-racist organization, MLKCSE staff will participate in a multi-year professional development trajectory focused on Emotional Intelligence and Social-Emotional Learning launching in August 2021.	Met	Teachers and staff members learned that social emotional learning begins with adults, and staff were able to explore their own emotional intelligence. Teachers also reflected on and became more self-aware of how their positions, identities, unconscious biases and lived experiences affect their day to day practices such as within the development of strong classroom communities. Although these are all part of our		
		work each year, we are strategically focusing deeply on a key area annually as part of a thoughtful, progressive sequence of staff and student development. EI - Launch 2021-2022 SEL - Launch 2022-2023 Anti-racist focus - 2023-2024.		
Measure: Each year, MLKCSE teachers overall will score an average of 2.75 or higher on section three (SEL, Diversity, Equity, and Inclusion) of the SEL Action Planning Rubric.	Met	The average score earned on section one of the SEL Action Planning Rubric was 2.83.		
Measure: Classroom teachers will assess the students' understanding of their impact on their community by using the MLKCSE Community Service-Learning Rubric. At least 95% of all	Partially Met	All of our students participated in two community service projects this academic year.		

	0004.00	Fridamas /:	
	2021-22 Performance (Met/Not Met)	Evidence (include detailed evidence with supporting data or examples)	
students will score at least a 3 (on a scale of 1 to 4) overall.		We did not meet having all students complete their reflection and grade them against our rubric. We have a thoughtful plan to fully meet this in the upcoming academic year. Overall, the average was 2.3 out of 4 based on the student reflections that were completed.	
Key Design Element Connection	: Positive characte	r development	
Objective: MLKCSE students will demonstrate grow perspective-taking, problem-solving, and self-control		nal recognition,	
		Students demonstrated growth. The overall average in student responses rose by 0.38 from:	
		Pre- student assessment data: 3.45	
		Post- student assessment data: 3.83	
Measure: By the end of each school year, MLKCSE students will demonstrate growth of at least 3% overall in social-emotional learning competence as measured by an external SEL assessment.	Partial Met	We did not end up administering the SEL Student Survey through Kickboard. The logistics required from students to access the survey, particularly at the elementary level, were overly complicated. We instead took SEL competency questions from CASEL and Panorama surveys and created a simple google survey format for students. It was a format our students have become familiar with. As such, the overall growth metric needed to be adjusted as 3% increase overall no longer applied to the 5-point Linkert scale used in the google survey.	
Measure: Each year, MLKCSE teachers overall will score an average of 2.75 or higher on sections one		The average score on sections	
and two (Lesson Planning and Classroom Environment) of the SEL Action Planning Rubric.	Not Met	one and two of the SEL Action Planning Rubric was 2.7.	
Key Design Element Connection: Experiential learning			
Objective: MLKCSE students will engage in experiential learning opportunities to deepen their understanding of the knowledge and skills demanded by the content standards.			
Measure: Each year, at least 85% of classroom teachers will deliver at least four experiential learning opportunities to their students.	Partially Met	Each grade level completed at least one experiential learning opportunity. All diverse learners completed at least two	

	2021-22	Evidence (include detailed
	Performance	evidence with supporting data or
	(Met/Not Met)	examples)
	(wiet/Not wiet)	. ,
		experiential learning
		opportunities this academic
		year.
		We provided all teaching staff
		with professional development
		at the beginning of the school
		year focused on Experiential
		Learning. It was also one of our
		annual priorities this year. We
		believe providing students with
		hands-on experiences supports
		them in developing their
		understanding of the content
		and their ability to "show what
		they know". Additionally, the goal
		was that deeping students'
		learning through experiential
		learning would promote accelerated student growth. Due
		to some limitations as a result
		of COVID, we did not execute as
		many experiential learning
		opportunities as planned.
		We were unable to meet this
		measure this academic year.
		With students returning fully and
		in-person, the learning gaps
		were significant and
		reacclimating students to the
		structure of the school
		environment forced us to focus on other areas. All students did
Measure: Of the teachers who deliver experiential		not complete an experiential
learning opportunities to their students, 80% of		learning activity at the end of
their students surveyed will state that they felt		each of their units and as such,
more interested or excited about learning as a	Not Met	student reflections on the
result of experiential learning. At least 90% of		experiential learning
students will respond to the survey.		opportunities were not
		comprehensive as we initially
		planned. For the upcoming
		academic year, we anticipate
		being able to meet this metric
		and will have our students
		maintain a portfolio including
		checklists for each experimental
		learning opportunity along with a
Key Design Element Connection	a las alia dale della della della	reflection journal.

Key Design Element Connection: Individualized student support

Objective: MLKCSE students will benefit from individualized student support based on student needs in ELA and Math.

	2021-22 Performance (Met/Not Met) 2021-22 Performance (Met/Not Met)	Evidence (include detailed evidence with supporting data or examples) Evidence (include detailed evidence with supporting data or examples)
Measure: By the end of each year, 85% of students will demonstrate at least one STEP level of growth in literacy.	Not Met	While some progress was demonstrated, we had 296/360 students = 82.2% of students demonstrated at least one STEP level of growth in literacy. The maximum level of growth this academic year was 7 STEP levels.
Measure: By the end of each year, 75% of students will demonstrate at least the average scale score point growth for their grade level in mathematics as measured by the iReady Math diagnostic assessments	Not Met	While some progress was demonstrated, we had 59% of students demonstrate at least the average scale score point growth for their grade level in mathematics as measured by iReady math diagnostic assessments.

Dissemination

Objective: MLKCSE will disseminate an impactful practice to either a fellow charter school, public school, or educational organization.

	2021-22 Performance (Met/Not Met)	Evidence (include detailed evidence with supporting data or examples)
Measure: Each school year, MLKCSE will identify and disseminate an impactful practice to at least one other school.	Met	We participated in the DESE facilitated IEP Improvement Focus Group on June 23rd. Our Director of Special Education and Student Services disseminated some of our strong IEP practices, in particular for team meeting facilitation. Additionally, we provided feedback on new proposed IEP forms. There were 37 people representing schools from across the Commonwealth in this group where our team meeting facilitation practices and form feedback were disseminated.
Measure: Each school year, MLKCSE will identify and disseminate an impactful practice at a workshop, conference, or to an educational organization.	Met	We disseminated on oral language and student discourse protocols at the Annual MATSOL Conference. This year, the conference was virtual. We were able to share some strong practices of ESL instruction at

MLKCSE, resources around developing oral language
through discourse protocols
with 92 participants from
districts across the state of
Massachusetts.

APPENDIX B: RECRUITMENT AND RETENTION PLAN

RECRUITMENT PLAN 2021-22

2021-22 Implementation Summary:

We implemented all aspects of the 2021-2022 Recruitment Plan and achieved positive results despite challenges as a result of the COVID-19 Pandemic. Being able to recruit students and collect applications was adversely impacted by COVID. We conducted virtual information sessions and provided information and applications to many of the city's pre-school programs (Head Start, Square One, YMCA). Our student outreach materials explicitly stated that our school serves all students including students with IEPs, students with 504 plans, and emerging bi/multilingual students. All materials were printed in English and Spanish. Our special education percentage did rise. It was 14.0 %, but is still slightly lower than our comparison index of 17.2%. Our ELL population was 25%, which is higher than the comparison index of 14.4%. The number of English Learners enrolling in our school is growing exponentially. Our economically disadvantaged population was 88%, which is higher than the comparison index of 81.9%. We continued to diversify our student population to the extent possible.

MLKCSE continues to serve a high needs population. The School's recruitment practices and implementation of the recruitment plan achieve the Commonwealth's goal of serving all students. MLKCSE has maintained full enrollment and a waiting list for all grade levels. The School continues to enroll a diverse student body, being comparable with our comparison index, and while also seeking to expand diversity efforts to include Asian and Somali students, a growing population in the greater Springfield area. This also speaks to the challenges of recruitment to these populations.

The school expects to continue to exceed the comparison index for English Language Learners, Limited English Proficient students, and economically disadvantaged students. We are basing this on initial enrollment information.

Describe the school's general recruitment activities, i.e. those intended to reach all students. General Recruitment Activities for 2022-23:

- Activity 1: Family-to-Family Outreach. MLKCSE will enlist our current families as
 advocates. We are seeing an increased power in word of mouth and the ability of our
 current families to share their personal experience in helping to recruit new families and
 students. This is a very effective way to build awareness of and interest in our school.
 We will ask current families to distribute applications to friends and colleagues.
- Activity 2: Open Houses/Family Information Sessions: MLKCSE will host at least 2
 family information sessions at the school prior to the application deadline. In advance,
 we will invite prospective families referred by our current families, local preschool
 providers, and any other prospective families and students. During the Open House
 Informational Session, we will provide families with the opportunity to tour the building,

learn about our particular educational program, and ask questions. To ensure greater access and equity, we will have staff available to interpret, representation from our Special Education program, and representation from our English Learner program. Our student outreach materials explicitly state that the school serves all students, including those with IEPs and 504s, and all materials were printed in English and Spanish and other relevant languages based on local demographics (e.g. Portuguese, Nepali, Vietnamese, Hindi, Swahili, Somali). At the end of the session, we will have applications for families available to complete.

- Activity 3: Preschool Outreach. Before the annual application deadline, we will do bilingual outreach at the local pre-school providers including but not limited to: Head Start, YMCA, Square One programs, and Playful Minds. We will meet with their management to schedule dates for informational sessions to families and deliver applications. During the informational sessions, we will share about our programming and the application process. Families will be invited to come visit the school. Historically, we have found that establishing relationships with preschool providers is a powerful way to conduct outreach to families. A school visit for local preschool providers will help to provide a clear picture of the program offered at our school and help support their recommendation of MLKCSE to the families currently enrolled in their preschool program.
- Activity 4: Mailings. Annually, before the lottery, we will send out mailings in English,
 Spanish and other languages in the district (e.g. Portuguese, Nepali, Vietnamese, Hindi,
 Swahili, Somali) to all families of district public school students who are involved in SPS
 pre-kindergarten programs. Depending on the number of openings we anticipate in
 grades 1-3, we will also send out mailings to the families of students entering those
 grades. These mailings will be clear and easy to understand. They will explicitly indicate
 that the school is welcoming of all students.
- Activity 5: Advertisement. We will leverage both digital and printed advertisements. MLKCSE will advertise in local media, such as Western Mass News, MassLive, El Pueblo Latino, The Republican, and The African American Point of View. We will target both English and non-English media outlets in print, television, and potentially radio. For print specifically, we will distribute flyers and postcards to key local locations such as libraries, community retail spaces, festivals and tabling event opportunities, local community groups and nonprofits, places of worship, and other spaces where our desired populations congregate. For electronic advertising specifically, we will leverage our website and social media platforms such as Facebook, Instagram, and ClassDojo. We will utilize emails and work to build up our mailing list. We have found that Facebook advertisements have led to increased attendance at Parent Information Sessions and new student applications. Because of programs within Google and Facebook, this outreach is available in almost any language once posted and therefore, is an effective method for reaching non-English speaking families. We will work on increasing our presence in the community.

Recruitment Plan – 2022-23 Strategies List strategies for recruitment activities for <u>each</u> demographic group.

serve students with special needs.

Special education students/students with disabilities

(b) Continued 2021-22 Strategies

☐ Met GNT/CI: no enhanced/additional strategies needed

We will continue to include information regarding our special education services on our recruitment materials. We will have a representative from our Special Education team available for outreach visits and open house/informational sessions.

We will send a special-education staff member to some pre-school information sessions.

We will send an annual notice to parents about our Special Education Parent Advisory Council.

(a) CHART data

School percentage: 14%

GNT percentage: 16.6%

Cl percentage: 17.2%

The school is below GNT percentages and below CI percentages.

(c) 2022-23 Additional Strategy(ies), if needed

We will focus our recruitment at preschools at Head Start as their centers

☑ Did not meet GNT/CI: additional and/or enhanced strategies needed. Include the time allotted for each strategy for data change (i.e. 2-3 years, 1 year) and/or if the school collaborated with a local community organization on these strategies.

In all recruitment and promotional materials, we will explicitly state that we serve all students, including those with existing IEPs and 504 plans, as well as those who have struggled academically in other school environments. (Time allotted data change = 1 year)

Promotional materials direct prospective families to the school website and SEPAC page for contact information and details about programs, events and special education services. (Time allotted data change = 1 year)

We will more intentionally highlight our special education services in advertising and share test scores and other success stories. (Time allotted data change = 1 year)

We will have a representative from our Special Education team available for outreach visits and open house/informational sessions to answer technical questions and provide support. (Time allotted data change = 1 year)

The Special Education Department will participate in the Kindergarten Screening Process to provide parents with programmatic information. (Time allotted data change = 1 year)

Limited English-proficient students/English learners

Recruitment Plan - 2022-23 Strategies List strategies for recruitment activities for each demographic group.

(b) Continued 2021-22 Strategies

 \boxtimes Met GNT/CI: no enhanced/additional strategies needed

Recruitment materials will be provided in a number of local non-English languages (Spanish, Portuguese, Nepali, Vietnamese, Hindi, Swahili, Somali, and Bantu).

Given the large Bantu-speaking population in Springfield, we have placed advertisements translated into Somali in local newspapers such as The Republican and The African American Point of View. We also attend and distribute materials at organizations throughout the city that serve non-English speaking families (e.g., churches, community events etc.).

(a) CHART data

School percentage: 25.1%

GNT percentage: 13.8%

CI percentage: 14.4%

The school is above GNT percentages and above CI percentages.

We will focus our recruitment on local preschools as their program serves many English Language Learners. We will continue to send a bilingual staff member for local outreach efforts.

We will continue to distribute recruitment material at New North Citizens Council at 2383 Main Street in Springfield and recruit at their after school program. "The mission of the New North Citizens' Council, Inc. is to provide advocacy, public and human services to Hampden County residents with an emphasis on Hispanic/Latino community for the purpose of enhancing the preservation and support of the family resulting in the improvement of quality of life."

We will send an annual notice to parents informing them of the opportunity to join our English Learner Parent Advisory Council.

(c) 2022-23 Additional Strategy(ies), if needed

Did not meet GNT/CI: additional and/or enhanced strategies needed. Include the time allotted for each strategy for data change (i.e. 2-3 years, 1 year) and/or if the school collaborated with a local community organization on these strategies.

The school is	Boys & Girls Club	
above GNT percentages and above CI percentages.	School staff members will meet one-on-one with leaders at HeadStart, Square One, Martin Luther King Jr. Family Services Inc., Department of Children and Families, & etc. to ensure that they are fully aware of our school's programs, and could share information with their clients and/or members in an informed manner.	
	(c) 2022-23 Additional Strategy(ies), if needed Did not meet CI: additional and/or enhanced strategies needed. Include the time allotted for each strategy for data change (i.e. 2-3 years, 1 year) and/or if the school collaborated with a local community organization on these strategies.	
	N/A.	
Students who are sub-proficient	(d) Continued 2021-22 Strategies In all recruitment materials, we will explicitly state that our school is open to all students regardless of prior academic performance. We will distribute recruitment material at preschools where students may have learning challenges or differences (see box for "Students eligible for free or reduced lunch"). On recruitment material, we will include that we provide general education tiered academic support. 2022-23 Additional Strategy(ies), if needed We will more intentionally highlight our special education services in	
	advertising and share test scores and other success stories. We will have a representative from our Special Education team available for outreach visits and open house/informational sessions to answer technical questions and provide support.	
	(e) Continued 2021-22 Strategies	
Students at risk of dropping out of	On recruitment material, we will include the short-hand of our mission and values, focusing on our commitment to social emotional learning and resilience.	
school	2022-23 Additional Strategy(ies), if needed We also provide academic interventions to support students in literacy development and other early key warning indicators to prevent future risk of dropping out of school.	

RETENTION PLAN 2022-23

Please provide a brief narrative report on the successes and challenges of implementing strategies from the 2021-22 Retention Plan.

2021-22 Implementation Summary:

MLKCSE implemented all aspects outlined in our 2021 -2022 Recruitment and Retention Plan.

Retention Rate: We exceeded our goal. Our retention goal (stability rate) was 86%, and our actual retention was 96.7%. This is above the statewide average of 95.3%.

Attrition Rate: Our attrition rate was 8.3%, lower than the median of 18.5%.

We successfully keep our students enrolled, generally losing only a few students mostly when they move out of state, to a different part of the state, or to surrounding charter schools that offer through grade 8 and/or high school. Next school year we will continue to implement our successful retention strategies from the current year.

Attendance Rate: Our attendance rate was 92.4% which is lower than the MA State average of 93.7% and the median of 93.1%. Our attendance rate was in line with our local public school district which was also 92.4%. We believe the cause of our attendance percentage dropping this school year was due to the ongoing pandemic, student illness, and in some cases, parents/guardians' hesitation to send their students back into the building.

Our school continues to have a strong history of keeping our students enrolled.

Overall Student Retention Goal

The overall student retention goal rate may be determined based on the school's past retention rates, the sending district(s) retention rate(s), and the supports the school implements to increase student retention.

Annual goal for student retention (percentage):

85%

Retention Plan - 2022-23 Strategies List strategies for retention activities for <u>each</u> demographic group.

The school's attrition rate is below third quartile percentages.	Special-Education Staff: We have full-time special education teachers, and a Director of Special Education and Student Services.		

Retention Plan – 2022-23 Strategies List strategies for retention activities for <u>each</u> demographic group.

The school has an inclusion model. This department provides push-in and pull-out services that include all IEP services to which each child is entitled.

Continue to provide parents/guardians of special education students avenues to provide feedback and express any concerns they have through conferences, and monthly Special Education Parent Advisory Council meetings.

Social Work Team: We have two full-time adjustment counselors, who provide one-on-one counseling for select students, plus small-group and large-group work for students on social skills, self-management skills, anti-bullying support, and, in general, how to be kind, ensure safety, and improve community.

Student Support Team: Our Student Support Team is composed of the following members: Dean of Students, two adjustment counselors, a nurse, and two assistant deans. The members of this team respond to students who are struggling to maintain their focus on academics throughout the school day. Additionally, they provide support during lunch and recess, outreach to parents, and they help facilitate student reflection and verbal de-escalation. For the upcoming school year, we will have a full-time BCBA, a Dean and four behavior interventionists in addition to a nurse and two counselors. We slightly shifted our staffing structure.

(c) 2022-23 Additional Strategy(ies), if needed

☐ Above third quartile: additional and/or enhanced strategies needed. Include the time allotted for each strategy for data change (i.e. 2-3 years, 1 year) and/or if the school collaborated with a local community organization on these strategies.

Students eligible for free or reduced lunch (low income/economically disadvantaged) (b) Continued 2021-22 Strategies ⊠ Below third quartile: no enhanced/additional strategies needed We have a non-discriminatory school community in which all students regardless of income or socio-economic status are able to participate in all school activities. Breakfast and lunch: We provide daily free breakfast and lunch. Uniform: MLKCSE values each student for who they are, not for (a) CHART data how they look or what they wear. The school has a uniform policy that requires students to come to school in uniform at all times, School percentage: except on scheduled non-uniform days or when special permission 6.4% is granted by the administration. Uniforms instill pride in the Third Quartile: school and give each child a feeling of being part of the school 22.0% community. They also help eliminate peer pressure. Furthermore, uniforms are more cost efficient in the long run. All students are The school's attrition expected to wear uniforms all year long including the first day of rate is below third school. quartile percentages. Field trips: Field trips are intended for all students and are not cost prohibitive. (c) 2022-23 Additional Strategy(ies), if needed ☐ Above third quartile: additional and/or enhanced strategies needed. Include the time allotted for each strategy for data change (i.e. 2-3 years, 1 year) and/or if the school collaborated with a local community organization on these strategies. N/A. (d) Continued 2021-22 Strategies We believe every child can succeed. MLKCSE provides a positive, structured, and engaging learning environment that encourages students to learn and grow which helps sub-proficient students become proficient, and helps all students succeed in school despite the global health crisis. Provide small group and individual support, through targeted WIN Students who are (What I Need) intervention groups sub-proficient Weekly Student Intervention Committee meetings, where a team reviews academic and social emotional data to problem solve for students of concern in order to determine who would benefit from interventions and additional support. School Culture: We have established and regularly communicate our mission, vision, core values, and goals. We proactively teach our core values through monthly assemblies, daily Community

Meetings, and social emotional learning opportunities. Each month of the academic year, we focus on a different core value. We delineate expectations for our Key Systems and school-wide student expectations. Additionally, we focus staff training on being proactive and preventative. This includes training and developing teachers on thoughtfully selected, proactive teacher leadership strategies from Lemov's Teach Like a Champion. These moves focus on setting high academic expectations, planning that ensures academic achievement, creating a strong classroom culture, setting and maintaining high behavioral expectations, and building character and trust. Another way we work to be proactive is by working with teachers and staff to develop clear routines and procedures. We do this at the schoolwide, grade-level-wide, and classroom levels. In execution, we use a systematic approach which positively reinforces habits of success and also offer predictable corrective responses as needed. Similar to academics, we have a clear multi-tiered system of support for social emotional needs as well.

Values education: One of the pillars of an MLKCSE education is character development. Our students learn the Dr. King Values, which helps them be part of a united and supportive learning community and be prepared to succeed in life. This happens during academics, through assemblies, and through daily Community Meetings.

Family engagement: The school is open to visits from families. Teachers maintain contact with parents, including providing student progress reports. Open House, Academic Showcase, Parent teacher conferences, and assemblies are popular ways to engage families in their students' education.

2022-23 Additional Strategy(ies), if needed

• Provide additional and/or enhanced strategies needed.

APPENDIX E: CONDITIONS, COMPLAINTS, AND ATTACHMENTS

A. Conditions

The school has no conditions at this time.

B. Complaints

The Board of Trustees received 1 written complaint from an employee about concerns. The matter was able to be resolved between the employee and the School Administration.

We received three complaints through the Problem Resolution System:

- 1) PRS 7353 resolved; school was fully compliant with regulations
- 2) PRS 7367 response submitted, matter being reviewed
- 3) PRS 7506 withdrawn

In each case, it was deemed that the school complied with regulations. In the case of 7367, the LEA submitted a response and the matter is still under review. We believe we are fully in compliance with the law and regulations.
